Special Note: Correction: Removed slaughter bulls entered as feeder bulls

Next publish date will be July 17th as we enter the summer sales schedule.

Compared to last week: Feeder steers and heifers were too lightly tested last week to develop an accurate market trend, however higher undertones were noticed on a significantly higher quality offering. Quality this week was mostly average to attractive. Consignments were offered in mostly small to moderate size packages. Buyers showed mostly moderate to good demand for light to moderate offerings. Demand for light fleshed cattle suitable to run on grass was mostly good this week. Demand for heavy weight, feedlot ready cattle was better this week as well with both cooperate packer feeders and farmer feeders both bidding aggressively over cattle in light to moderate flesh. CME positions moved sideways again this week as they struggle to find direction. Boxed beef prices continue to fall as slaughter levels return to normal levels and heavier weights have more product available than a year ago. As of Thursdays settlement the August feeder cattle contract closed at 133.25, 0.275 higher than last Thursdays close. Market activity this week was mostly moderate to active. Weigh up cows sold on mostly good demand this week for moderate to heavy offerings. However, cow supplies have lightened some as branding season is almost over. With a lightened summer sales schedule going forward all buyers were aggressive as they bid on offerings this week. Packers showed mostly good demand for cows for immediate harvest as they bid against feeding buyers over offerings. Lean cows sold with the best demand this week as packers look for lean product to blend down heavy supplies of fat trimmings from over finish cattle. Slaughter cows sold mostly steady to 2.00 higher. Feeding cows sold mostly steady to 3.00 higher. Slaughter bulls sold firm. Cow quality this week was average to very attractive. Weigh up conditions were average to below average as warm weather had many cows very full this week. Young age cows suitable to feed or re-breed sold unevenly steady. Quality was mixed this week from average to very attractive. Supply included: 21% Feeder Cattle (43% Steers, 55% Heifers, 2% Bulls); 9% Slaughter Cattle (68% Cows, 32% Bulls); 28% Replacement Cattle (94% Stock Cows, 0% Bred Cows, 4% Cow-Calf Pairs, 2% Heifer Pairs); 16% Feeder Sheep/Lambs (100% Lambs); 19% Slaughter Sheep/Lambs (0% Shorn, 21% Woolled, 10% Hair Breeds, 60% Ewes, 3% Hair Ewes, 3% Bucks, 3% Hair Bucks); 2% Replacement Sheep/Lambs (87% Ewes, 13% Families); 2% Feeder Goats (100% Kids); 3% Slaughter Goats (38% Kids, 44% Nannies/Does, 4% Bucks/Billies, 14% Wethers). Feeder cattle supply over 600 lbs was 80%.
